Instruction Manual  P/N: 77-46308  SCORCHER Module

Make: BMW  Model: X5 xDrive35d (E70)  Year: 2009-2013  Engine: L6-3.0L (td) M57
Make: BMW  Model: 335d (E90)  Year: 2009-2011  Engine: L6-3.0L (td) M57
• Please read the entire instruction manual before proceeding.
• Ensure all components listed are present.
• If you are missing any of the components, call customer support at 951-493-7100.
• Ensure you have all necessary tools before proceeding.
• Do not attempt to work on your vehicle when the engine is hot.
• Disconnect the negative battery terminal before proceeding.
• Retain factory parts for future use.

Installation

Step 1: Before installing the aFe module, you will have to place the vehicle ECU in sleep mode. In order to place the vehicles ECU in sleep mode you will need to do the following:

1) If the engine is cold, open the hood, close the doors, lock the car and wait 30 seconds.
2) If the engine is warm, open the hood, close the doors, lock the car and wait 20 minutes.
3) If the engine is warm and you can’t wait 20 minutes, disconnect the battery.
Refer to Figure A for step 2

Step 2: Remove engine cover by pulling upwards out of vehicle.

(Note: To remove the 335d engine cover, remove the 4 Allen head bolts and oil cap.)
Refer to Figure B for step 3

Step 3: Locate the fuel pressure regulator valve.
Refer to Figure C for steps 4-5

Step 4: Disconnect the fuel pressure regulator valve harness. (Circled in white).

Step 5: Plug the female connector of the aFe jumper harness onto the stock engine harness and the male connector to the fuel pressure regulator.
Refer to Figure D for steps 6-7

Step 6: Route the aFe module harness then use the supplied cable ties to secure it.

Step 7: Using the supplied high temp velcro, find a clean flat surface and firmly mount the module.

(If the sticky side of the Velcro ever gets pulled off, replace it with a brand new high temp piece.)
Refer to Figure E for steps 8-9

Step 8: The aFe Scorcher Module has three adjustable settings via a switch next to the blue LED.

1. Switch in the center position: Factory setting.
2. Switch toward blue LED: Stage 1 setting (mid gains.)
3. Switch away from blue LED: Stage 2 setting (high gains.)

Adjust the module to the desired setting after installation and when needed but make sure to do it only while the vehicle is in sleep mode.

NOTE: Place enclosed CARB EO sticker on or near the device on a smooth, clean surface.
EO identification label is required to pass the smog test inspection.

Warranty

General Terms:
• aFe warrants their products to be free from manufacturer’s defects due to workmanship and material.
• This warranty applies only to the original purchaser of the product and is non-transferrable.
• Proof of purchase of the aFe product is required for all warranty claims.
• Warranty is valid provided aFe instructions for installation and/or cleaning were properly followed.
• Proper maintenance with regular inspections of product is required to insure warranty coverage.
• Damage due to improper installation, abuse, unauthorized repair or alteration is not warranted.
• Incidental or consequential damages or cost, including installation and removal of part, incurred due to failure of aFe product is not covered under this warranty.
• All warranty is limited to the repair and/or replacement of the aFe part. To request Return Goods Authorization (“RGA”), email RGA@afepower.com or call (951)493-7100. Upon receipt of the RGA, you must return the product to the address provided in the RGA, freight prepaid and accompanied with a dated proof of purchase and the RGA. Upon receipt of the defective product and upon verification of proof of purchase, aFe will either repair or replace the defective product within a reasonable time, not to exceed thirty days.
