

PLS117

# NEW PRODUCT ANNOUNCEMENT

**2014-2015 CHEVY SILVERADO 1500  
2WD/4WD GAS ONLY 5" LIFT  
PART NUMBER PLS117**

Performance Accessories' Premium Lift System for 2014-2015 Chevy Silverado 1500 gas engine pickups, provides the only solution for your customers who want to run larger tires, but don't want to alter the factory ride, or fear getting the vehicle warranty voided at the dealership. Made in the U.S.A., the Performance Accessories Premium Lift System (PN-PLS117) combines the industry's highest-quality body-lift and leveling kit, to raise the vehicle 5-inches; allowing the use of up to a 35-inch diameter tire.

This system fits 2WD/4WD Chevy Silverado models, and comes with nylon-reinforced body-blocks, precision laser-cut bumper mounts, coil spring spacers, a CNC machined steering shaft extension, heavy-duty hardware, and urethane wheel-well extensions (Gap Guards) that conceal any gaps between the body and frame.

- PLS Kits maintain a superior factory ride
- Does not affect the factory suspension geometry
- Maintains the vehicle's factory turning radius
- Can be used with OE wheels
- Does not affect the vehicle's driveline
- Provides a lower center of gravity than a full-suspension kit with the same amount of lift
- Can be completely removed if necessary
- Allows Dealers/Jobbers the ability to sell a complete lift with wheels and tires to customers with a limited budget
- Improves the vehicles overall resale value
- Install time: 8-9 hours
